NOTICE REGARDING PROPOSITION 65 WARNING FOR BISPHENOL A (BPA)

On the back of this letter is a California Proposition 65 warning sign for bisphenol A (BPA). You are receiving this warning sign because the Office of Environmental Health Hazard Assessment (OEHHA) added bisphenol A (BPA) (CAS No. 80-05-7) to the list of chemicals known to the State of California to cause reproductive toxicity for purposes of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65). The warning sign is provided pursuant to section 25603.3(f) & (g) of Title 27, California Code of Regulations, and covers canned and bottled foods and beverages, including but not limited to those containing fruits, vegetables, soups, pasta products, milk, non-alcoholic, and alcoholic beverages. Pursuant to the regulations, upon receipt of this notice, OEHHA requires retailers of such products to post the following warning on a 5-inch square or larger sign:

WARNING: Many food and beverage cans have linings containing bisphenol A (BPA), a chemical known to the State of California to cause harm to the female reproductive system. Jar lids and bottle caps may also contain BPA. You can be exposed to BPA when you consume foods or beverages packaged in these containers. For more information go to: www.P65Warnings.ca.gov/BPA.

The warning sign is on the back of this letter. You may make as many copies of this warning as you need. Please post this warning sign at each point-of-sale, meaning the area within your retail facility where customers pay for foods and beverages, such as the cash register or check-out line. Please post the warning sign where it is likely to be seen and understood before a consumer buys canned or bottled foods or beverages. Point-of-sale also includes electronic check-out functions on Internet websites, so please forward the above warning language to your e-commerce partners. The regulations, which are available at www.oehha.ca.gov, provide additional details on the requirements.

The warning sign must be posted on or before May 11, 2016. It is very important that you post and maintain this sign until further notice.

If you need more Proposition 65 BPA Warning Signs, please visit www.prop65signmanagement.com to place an online order. There is no charge for the signs and regular shipping is free. There will be a charge for expedited shipping, if requested. If you have any questions, please email info@prop65signmanagement.com or call (800) 421-3003. Please note that we are not authorized to provide legal advice.

For the names of the trade associations, companies, brands, and products for which this notice and warning are being provided, go to www.prop65bpa.org. Even if not separately listed, the brands and products of each member of each identified trade association or company may result in an exposure to BPA. Please inquire directly to the companies if you want more information. Proposition 65 Sign Management, Inc. is the authorized agent of these trade associations and companies for purposes of providing this notice and associated warning signs to retailers of these products. You may also receive similar notices or names of additional products directly from your suppliers.
